

## **First workshop on “Enhancing the transfer of Intelligent Transport Systems (ITS) innovations to the market” on June 26<sup>th</sup>, 2013 in Thessaloniki**

The two EU projects TIPS and T-TRANS co-organize the 1<sup>st</sup> workshop on G-Local Community of Interest to Market. During the workshop experts from academia, research institutes and enterprises will discuss ways to enhance the transfer of Intelligent Transport Systems (ITS) innovations to the market. The first two sessions include presentations about the I.T.S. landscape and relative applications in the region of Kentriki Makedonia.

The workshop will take place on Wednesday June 26<sup>th</sup>, 2013 between 16:00 -20:00 in Thessaloniki Concert Hall.

The two projects aim at supporting EU funded FP projects to be at the source of innovation.

TIPS aims at enhancing the capacity of projects in the field of transport to transform research results into products and services by delivering individual support, training and information on exploitation methodology.

T-TRANS aims at providing information on innovation mechanisms for the Intelligent Transportation System, facilitating the transfer of related innovative products and services to the market.
