

TIPS

TRANSPORT R&D
FOR INNOVATION

WWW.TRANSPORT-TIPS.EU

ENHANCING THE CAPACITY OF
EU TRANSPORT PROJECTS TO

TRANSFORM RESEARCH
RESULTS INTO
**INNOVATIVE PRODUCTS
AND SERVICES**

The TIPS project is supported by the European Commission through the Seventh Framework Programme for Research and Technological Development / Coordination and Support Actions (CSA)

This 2 year project runs from 1st October 2012 to 30th September 2014.

TIPS INTRODUCTION

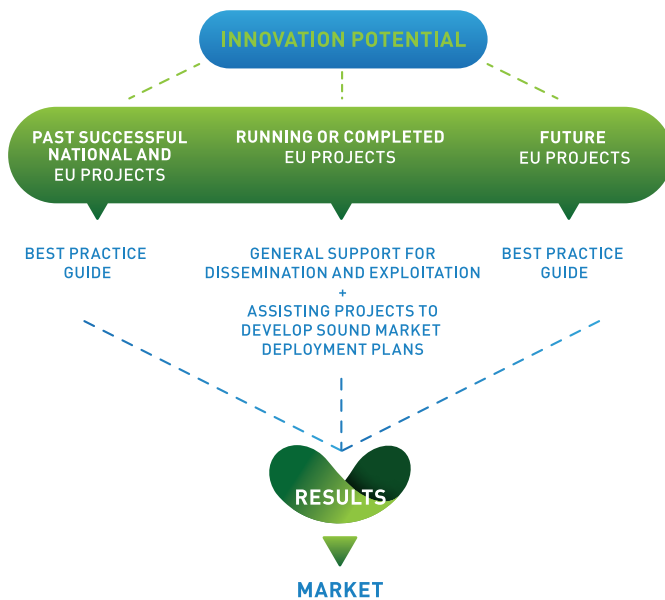

Transport is one of the main factors of economic sustainability and growth, but increasing demands in that sector call for pro-active procedures in order to get more innovative solutions quicker into the market. Therefore, TIPS will analyse exploitation strategies of completed projects and develop good practices to help ongoing transport projects to exploit their research results.

Road, rail, maritime, air and intermodal transport will be covered.

TIPS APPROACH

TIP WILL ASSIST YOU IN GETTING BETTER ACCESS TO THE MARKET

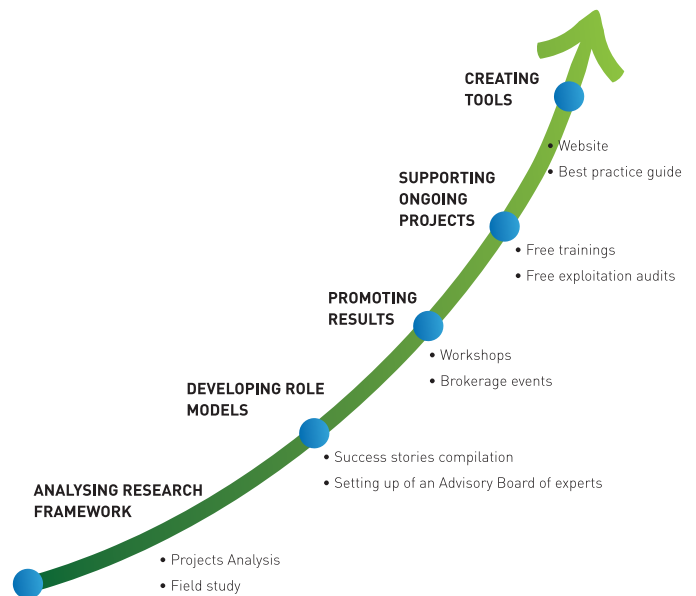

Based on a sound field study in which EU and national transport research projects will be analysed, TIPS aims at better understanding the innovation and exploitation processes of research results in order to help transform these results into innovative products and services:

TIPS ACTIVITIES

HOW TIPS WILL ASSIST RESEARCH PROJECTS IN EXPLOITATION PLAN ELABORATION

If you are a public or private body supporting research projects and partners working in the transport sector please be aware TIPS can help them to exploit their research results:
